Knowledge Hub

This portal is all about sharing a link or url with the community which benefits both link owner and community.

Introduction

Knowledge hub is a web portal where a user can submit her/his portal URL under a specific category to be shared on knowledge hub. Admin can approve or reject the URL submitted by the user and in each case an email is sent out to the user. Once the link is approved, it will be available on the knowledge hub portal.

UI Prototypes

Home page

Homepage or you can say Dashboard some kind of calendar that I want to show. Normally, this homepage is accessible by all the users. Whether it is Admin/User/Anybody. This is a common page.
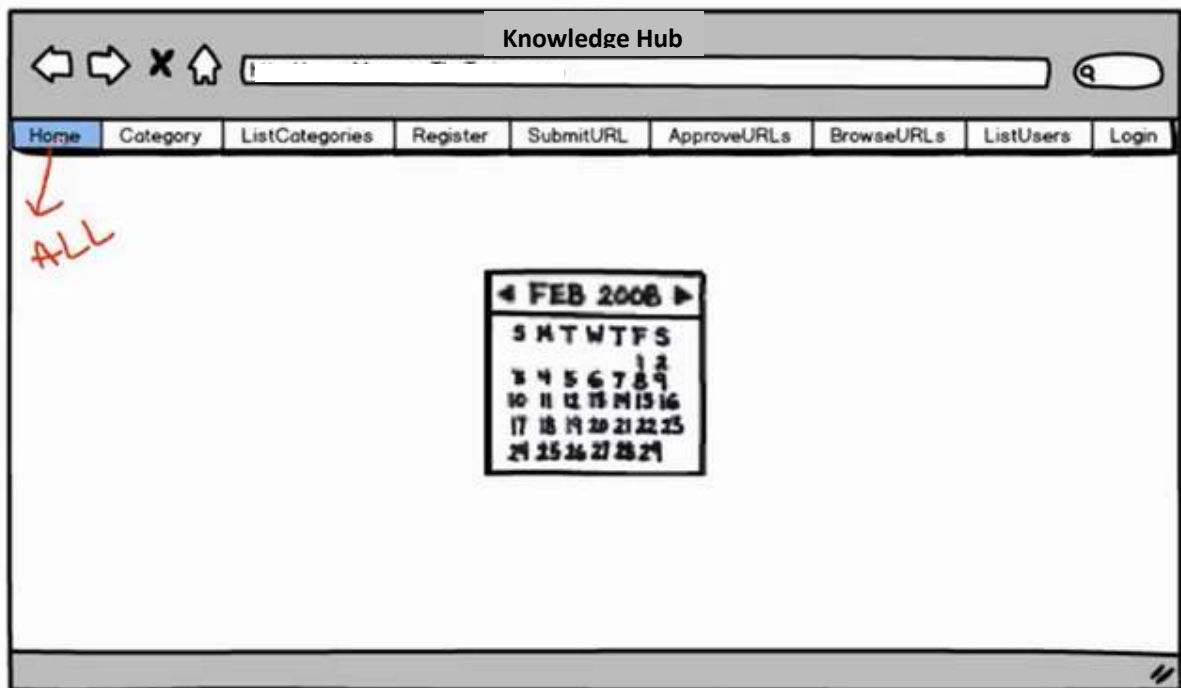

Category page

The page where I can create category. Normally, Only Admin should have access to this page.

List Categories Page

This page is also accessed only by Admin. Admin can see what all the categories he has created.

Register page

Any user can register. Everyone will have access to this page.
